

Voters Roll Address Search

Using just a postcode, or a post code and a house number, the Voters Roll search allows users to quickly and easily see who is registered for voting at **any address in the UK**.

The Voters Roll search can be performed individually, or provided that the postcode is included in the search criteria, the VR Address search will happen automatically as part of a LoCTA Plus search.

If there is a house number or street name included, that will also be used to refine the VR Address search to bring more targeted results.

The screenshot displays the LoCTA Plus website interface. On the left, a navigation menu is visible with categories: SEARCH, COUNCILS ONLINE, and DASHBOARDS. Under the SEARCH category, there are three columns of links: 'LoCTA Searches' (including LoCTA Plus, Benefits, Council Tax Name, Council Tax Address, Business Rates, Links, Land Registry, Local Land Charges, LACEF, Charity Commission, London South East Credit Circle, Insolvency Register, HM Land Registry Open Data, Probate Data, Scores On The Doors - Official Food Hygiene Ratings, Food Standards Agency, Registered Providers Of Social Housing, and DVLA Information Request), 'Additional Searches' (including Telephone Directory, Voters Roll, Voters Roll By Address, Deceased, Address Finder, and Companies House), and 'Credit Searches' (including Equifax Equip, Equifax Admin (IdAMS), and TransUnion 360 Report). A blue arrow points to 'Voters Roll By Address' with the text 'Click 'Voters Roll By Address''. On the right, the search form is shown with fields for FORENAME, SURNAME, DATE OF BIRTH, NINO, HOUSE NAME / NUMBER, STREET NAME, and POSTCODE. There are also checkboxes for 'BLANK FORENAME', 'LIVE CASES ONLY?', and 'SEARCHES REQUIRED' (including DECEASED, VOTERS ROLL, COUNCIL TAX NAME, COUNCIL TAX ADDRESS, and TELEPHONE DIRECTORY). A 'BY DISTANCE FROM COUNCIL' slider is set to 'National'.
