

To... Search Voters Roll based on addresses

Using just a postcode, or a postcode and a house number, the Voters Roll address search allows users to quickly and easily see who is registered for voting at **any address in the UK**.

The Voters Roll search can be performed individually, or provided that the postcode is included in the search criteria, the VR Address search will happen automatically as part of a LoCTA Plus search.

If there is a house number or street name included, that will also be used to refine the VR Address search to bring more targeted results.

The image shows two parts of the LoCTA Plus interface. On the left is a navigation menu with categories: SEARCH, COUNCILS ONLINE, and DASHBOARDS. Under SEARCH, there are three columns: 'LoCTA Searches' (including LoCTA Plus, Benefits, Council Tax Name, Council Tax Address, Business Rates), 'Additional Searches' (including Telephone Directory, Voters Roll, Voters Roll By Address, Deceased, Address Finder, Companies House), and 'Credit Searches' (including Equifax Equip, Equifax Admin (IdAMS), TransUnion 360 Report). A green arrow points from the text 'Click 'Voters Roll By Address'' to the 'Voters Roll By Address' link in the 'Additional Searches' column. On the right is a search form titled 'LoCTA Plus'. It has fields for FORENAME, SURNAME, DATE OF BIRTH, NINO, HOUSE NAME / NUMBER, STREET NAME, and POSTCODE. Below these are fields for SEARCH START and SEARCH END, a 'LIVE CASES ONLY?' checkbox, and a 'BY DISTANCE FROM COUNCIL' dropdown menu. At the bottom, there is a 'SEARCHES REQUIRED' section with checkboxes for SELECT ALL, BENEFITS, COUNCIL TAX NAME, COUNCIL TAX ADDRESS, TELEPHONE DIRECTORY, DECEASED, VOTERS ROLL, and VOTERS ROLL BY ADDRESS. The 'VOTERS ROLL BY ADDRESS' checkbox is highlighted with a green box.
