

To check your SBRR / SBBS records for duplicates

The LoCTA Hub runs an automated weekly check on cases where SBRR/SBBS is being granted to check where duplicates may appear. Where possible duplicates appear, these are added to the alert which can then be analysed.

The analysis will split the results into businesses and individuals, based on the rate payer name.

A quick check will show the rateable value of the property, so that it's easy to see where larger properties are claiming SBRR/SBBS.

Rateable Value Band	Business	Individual	Total
<input type="radio"/> Below 12K	0	0	0
<input type="radio"/> Range 12K to 15K	0	0	0
<input type="radio"/> Range 15K to 51K	0	0	0
<input type="radio"/> Above 51K	0	0	0
Total	0	0	0

The analysis also splits out those with a unique time period, so that these can be eliminated.

Time Period Analysis	Business	Individual	Total
<input type="radio"/> Overlapping Time Period	0	0	0
<input type="radio"/> Unique Time Period	0	0	0
Total	0	0	0

The results can then be analysed by the matching criteria of particular interest in the results.

Match Criteria	Business	Individual	Total
<input type="radio"/> Matching Emails	0	0	0
<input type="radio"/> Matching Person/Sole Trader Names	0	0	0
<input type="radio"/> Matching Start Dates	0	0	0
<input type="radio"/> Start Dates within 1 Year	0	0	0
<input type="radio"/> Match on Correspondence Post Code	0	0	0
<input type="radio"/> Match on Property Post Code	0	0	0
<input type="radio"/> Match on Forwarding Post Code	0	0	0
<input type="radio"/> No Match on Above Criteria	0	0	0
Total	0	0	0
